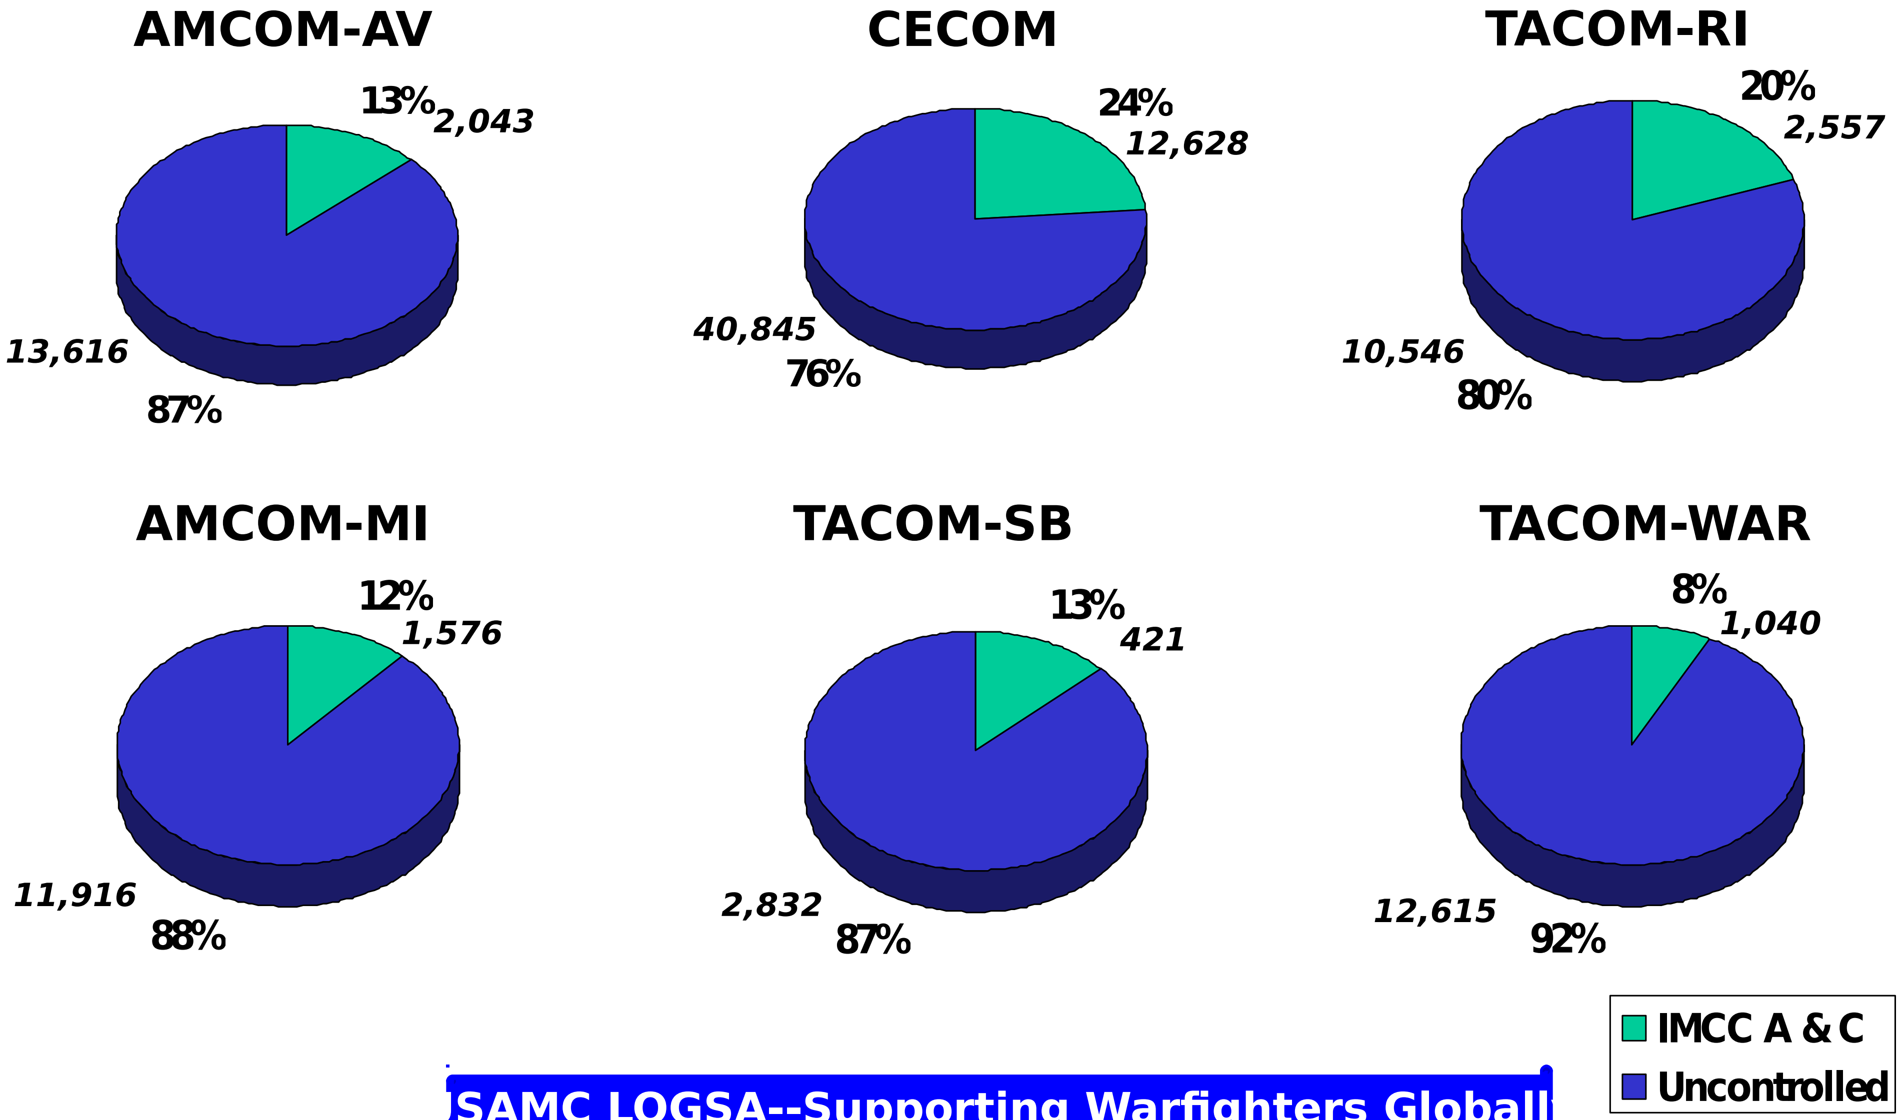
IMCC A and C vs. Online Processing Secondary Items Managed by ICP – Mar 04



Mar 04 data as of 1 Apr 04

Breakout of Controlled Items

	IMCC "A"	IMCC " C"
AMCOM-A	843	1,200
AMCOM-M	1,412	164
CECOM	11,927	701
TACOM-W	238	802
TACOM-R	2,081	476
TACOM-SB	269	152

IMCC "C" requisitions are run thru the Control Item Logic File (CLF). CLF is an IMMC tool that facilitates automatic processing. CLF completes processing for many "C" coded items based on parameters placed in the CLF, e.g., designated DODAACs, priorities, quantities, etc. Only requisitions not meeting CLF parameters will ever kick off-line for processing.
